Inspiring Innovations – Enabling Transformation

SPELLOY AF-Carbon TechnoPet KOPEL AF-Complex NOPLA
Kocetal Akromid Tarflon TechnoFiber

At K.D. Feddersen GmbH & Co. KG, we specialise in the distribution and market development of engineering polymers in the European and Asian markets for more than 50 years. With K.D. Feddersen UK Ltd. a wholly owned subsidiary, we took a successful distribution concept into another significant European market.

Ideas bring applications to life ...

We:

- assist you in selecting the right plastic for your products
- show you effective, practicable solutions for your product developments
- deliver custom-designed distribution concepts – even for small quantities

Engineering Plastics²

The European production headquarters of the Feddersen Group is AKRO-PLASTIC GmbH in Niederrissen, Germany, along with its subsidiary AF-COLOR. Thus we have comprehensive technical expertise in engineering plastics to draw on and utilize the synergies afforded by this alliance for the benefit of our customers:

- Innovative R&D services
- Development of formulations based on customer specifications, resulting in marketable standard products
- Toll compounding – from small orders to full service
- Certified to ISO TS 16949 : 2009, ISO 9001 : 2008, ISO 14001 : 2005
- Assured materials testing in an accredited test laboratory (DIN EN ISO 17025 certified)

We look forward to meeting with you!
